Surface Disinfectant Wipes
Hospital Grade

Henry Schein Surface Disinfectant Wipes are a premium quality wipe soaked in a cleaning and broad-spectrum disinfection solution. Developed to reduce cross contamination in healthcare environments, they provide fast acting disinfection including activity against SARS-CoV-2 (Covid 19) in 2 mins. The wipes are absorbent, lint free and textured to aid cleaning.

Features and Benefits

- 2 in 1 cleaning and disinfection
- Fast acting, broad spectrum, hard surface disinfectant
- Active against SARS-CoV-2 (Covid 19) in 2 mins
- Non-abrasive, non-corrosive
- Lint free, absorbent wipes aid cleaning

Directions for use

- Suitable for hard, non-porous surfaces including stainless steel, plastics, glass, and painted surfaces. Not intended for use on medical device or on skin.
- First clean the surface to remove all contaminants (a Henry Schein Neutral Detergent Wipe can also be used to clean). Once the surface has been cleaned, take a fresh wipe to disinfect and wipe down leaving the surface visibly wet. Allow to dry at ambient temperature.
- Refer to packaging for detailed information.
